

MOHS

Total Mohs Lab Solutions

 AVANTIK

The #1 Name in Mohs

The Avantik Difference... Your Turn-Key Mohs Laboratory Solution

We are your single source for quality equipment, consumables, support, and education -- combining these so your Mohs lab set-up is efficient and successful. Avantik is here to help you control the factors that go into building an effective Mohs laboratory. You can also visit our website for more information.

avantik-us.com

Choose Avantik...

This simple choice will make all the difference in the efficiency and workflow of your Mohs lab.

We will help.

The Avantik Difference is...

➤ Lab Design

We offer a wide range of setup services including personalized, pre-construction planning with free CAD drawings and consultation services.

➤ Instruments and Lab Equipment

Avantik's QS12 is the #1 cryostat in the Mohs industry. We also offer a range of Mohs equipment, providing the confidence you need for an efficient and easy Mohs laboratory.

➤ Lab Set-Up

We will ensure that your laboratory is equipped with the proper instrumentation, combining an efficient workflow with an ergonomically sound environment that is CLIA and OSHA compliant.

➤ Lab Consumables

We offer our no backorder guarantee on over 900 in-stock products. Orders placed by 3 p.m. EST on in-stock products will ship the same day.

➤ Equipment Service

Our business began in the service industry, and today we offer a line of comprehensive service programs, maintenance and emergency repair through Avantik or one of our service partners.

➤ Mohs Technician Training

The Avantik Training Academy is a fully functional "wet" laboratory, complete with state-of-the-art equipment for the most up-to-date and advanced hands-on training available.

➤ On-Going Technical and Application Support

Avantik is here to provide you with continuous, superior technical and application support. Our dedicated support specialists are always available by telephone or email to answer any of your questions.

AVANTIK

The #1 Name in Mohs Lab Solutions

During Mohs surgery, your patients are waiting, and we know that...

Since your lab work is done immediately on-site, the efficiency and accuracy of your workflow are critical factors to the success of the surgery. With over 30 years of experience in supporting Mohs surgery laboratories, Avantik is adeptly positioned to deliver the lab solutions that meet your specific needs.

Our Promise.

- A consultative approach to your needs by a dedicated team of specialists
- Personal and superior customer service
- One-year warranty on equipment
- Same-day shipping on all stock consumable products ordered by 3 p.m. EST

Trevor Mornan
Managing Director

You can depend on Avantik...

We will help you have everything in your Mohs lab running the way you want and need it to.

That's Our Promise.

Call **1.800.783.9424** to speak with our Mohs Specialists.

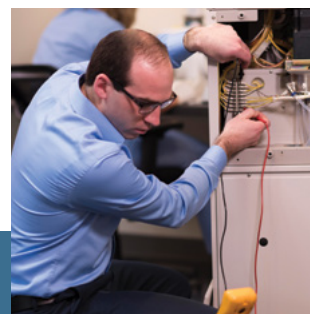

GUARANTEED

EQUIPMENT. PRODUCTS. SERVICES.

Avantik brings together **guaranteed equipment, products and services** to support every aspect of your Mohs laboratory operations.

Through a winning combination of quality equipment, 100% product quality guarantee, trusted service and repair, plus in-depth Mohs training from industry educational leaders - **you can count on Avantik to help you gain control and consistency in your Mohs laboratory.**

Avantik offers...

Equipment | Consumables | Service | Education

To manage the factors that challenge your Mohs laboratory workflow.

THE #1 MOHS CRYOSTAT

THE REVOLUTIONARY

QS12

CRYOSTAT

*The **QS12** and **QS12UV** provide an exceptional level of precision for consistent and accurate sectioning. The advanced technology of the EZ-Touch Touchscreen Interface and revolutionary features make it simple for technicians to obtain high-quality sections with consistency.*

The Revolutionary QS12 Cryostat...

The Foundation of your Mohs Lab.

With over three decades of support to Mohs laboratories nationwide, Avantik is proud to deliver our second cryostat offering for Mohs. *The Revolutionary QS12 Cryostat.* The **QS12** is the most advanced, accurate and intuitive cryostat available. The **QS12** and **QS12UV** feature our EZ-Touch touchscreen control panel, our dovetail blade holder system to eliminate chatter, Venetian blind and thick/thin sections, an exceptionally smooth handwheel rotation and the industry's most advanced, reliable and accurate stepper motor technology. The **QS12** and the **QS12UV** provide unmatched features and benefits to enhance accuracy, efficiency and safety in your Mohs laboratory. Most of all, the **QS12** offers the most precise and efficient cryostat available to assure your confidence, and help you to achieve perfect sections every time and maintain a consistent workflow in your Mohs lab.

Peltier provides fast freezing (-55°C) for 4 stations (27 freezing stations total)

Stepper motor technology achieves precise trim and section thickness, and sectioning depth measurements

With UVC option, choose from a four, three, two or one hour UV light duration, schedule the time to start and walk away

Powerful 39W UV light source does the rest

Perfect Sections...

The Avantik QS12 will allow you to create perfect sections for a head start on the perfect slide.

The Choice is Clear.

Perfect sections start with the QS12 Cryostat.....

The Avantik QS12's dovetail bladeholder.

The advanced engineering of the dovetail blade holder system provides greater stability and support. This comprehensive design eliminates chatter, thick-thin, and Venetian blind sections giving you the perfect section every time.

Specifications

Instrument dimensions	29"W x 30"D x 45.5"H
Recommended clearances	36"W x 33"D x 60"H
Instrument weight	315 lbs.
Electrical requirement	120V, Dedicated 20 amp

Features

Benefits

Dovetail clamping blade holder	Eliminate chatter, Venetian blind & thick/thin sections
EZ-Touch Touchscreen Control Panel	All controls are easily identifiable and outside the cryostat to keep the technicians' hands out of harms' way as much as possible
27 Freezing stations	Greater specimen capacity for labs with high volume
Peltier cooling device	Faster specimen preparation and decreased freezing times increase lab productivity
Memory feature	Predefined advance of the specimen to the knife-edge for easy re-cuts
Controlled trim function	Reduced risk of "chunking out"
Ultra-quiet & efficient refrigeration system	Eliminate frost buildup and greatly reduce the ambient noise in your lab
Smooth handwheel rotation	Reduce the risk of repetitive motion injury by 85%

THE MOHS LABELING SYSTEM

THE AVANTIK

LP16

LABELING SYSTEM

Thousands of specimen identification errors occur annually, which inevitably leads to adverse patient events. A large percentage of these errors are due to illegible slides. Combined with Avantik's optimized Mohs Software Solution, the LP16 Labeling System brings the confidence and reliability of accurate specimen identification to your laboratory.

Benefits of the Avantik LP¹⁶ Label Printing System

- Eliminate slide identification errors
- Small footprint fits anywhere in your lab
- Chemical resistant labels to ensure high quality and permanency
- Cost-effective solution
- Optimized software solution for Mohs
- Fast and reliable slide labeling system for improved lab efficiency

Easy Slide Labeling...

This could be the difference between an easy CLIA inspection and one which causes grief.

... achievable with Avantik.

THE AVANTIK **LP16**

Benefits

Allows for fast data entry and Mohs tech efficiency.

Easy reprint of labels on repeat or multiple stage cases.

Record of every case printed and creates CLIA log file eliminating handwritten CLIA logs.

Creates quick select menus for surgical site abbreviations and stage/slide numbering sequences.

Slide can be stained with no risk of losing patient data.

Easy use while at your cryostat for a quick reprint of multiple stage cases.

The Avantik Mohs Training Academy

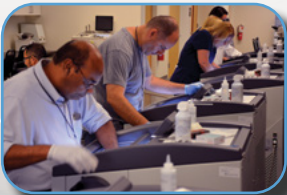

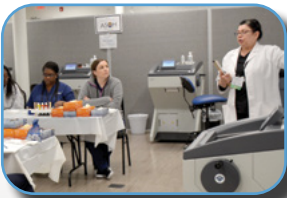

Classes are held several times per year for Mohs technicians as well as Mohs surgeons!

Visit our state-of-the-art, hands-on educational facility for Mohs.

The Avantik Academy is a beacon of our commitment to continuing education and fostering forward progress in Mohs. The Avantik Academy comes equipped with a fully functional “wet” laboratory, complete with all new equipment for the most up-to-date and advanced hands-on training available anywhere. Whether you are advanced in your career or just curious and starting out, these classes will provide a wealth of invaluable knowledge for technicians and surgeons alike. Among other important topics, you will learn about:

- *Hands-on embedding, cutting & staining techniques*
- *Histotechnology training for Dermpath*
- *Troubleshooting and quality control*
- *CLIA and OSHA compliance*
- *Setting up a new lab: What you should know*
- *IHC for Mohs and Dermpath*

RESILIENCE™ GLACIAL

The Ultimate Mohs Blade

Avantik Glacial cryostat blades offer consistent and precise cuts that are essential for frozen sectioning. Seamless sectioning starts with the ease of dispenser operation and high-quality performance blade to blade. Positive customer reviews include; blade longevity, easy ribboning, low compression, and continuous section consistency from one cut to the next. The Avantik Glacial cryostat blades are manufactured in the USA and offer impressive durability that your technicians can count on to yield high-quality results.

Specifications:

- Three-faceted cutting edge for optimal sharpness
- Coated with a PTFE technology formula to improve the life of the blade over multiple cuts
- No pre-cleaning of blades required; ready to use upon dispensing
- Ideal for frozen sectioning
- Made in the U.S.A

REAGENTS & STAINS

TYPE 1 ONE

Hematoxylin - Optik Type 1

A uniquely formulated progressive Hematoxylin that will produce crisp, well delineated chromatin while eliminating background staining. Exceeds Gills and Harris and will not form surface sheen or require daily filtering. Contains no mercury or alcohol. Hematoxylin DK provides a darker, more intense stain.

Item	Description	Size	Case Qty
RS4358-A	Hematoxylin	500mL	4 x 500mL
RS4576-A	Hematoxylin DK	500mL	4 x 500mL

Eosin - Optik Type 1

Optik Type 1 Eosin is an alcoholic eosin that allows for exceptional contrast between cytoplasm and nuclei. Produces a contrasting pastel appearance. Eosin PX, which contains phloxine, produces a more reddish stain in the cytoplasm.

Item	Description	Size	Case Qty
RS4359-A	Eosin	500mL	4 x 500mL
RS4577-A	Eosin PX	500mL	4 x 500mL
RS4611-A	Eosin LI	500mL	4 x 500mL

Bluing Reagent Concentrate - Optik Type 1

Optik Type 1 Bluing Reagent is a concentrated bluing reagent with a pH of 8.0 to assure proper bluing of hematoxylin stained tissue sections. It is also more resistant to the effects of carry-over and remains in the proper pH range for a longer period of time.

Item	Qty	Case Qty
RS4362-A	500mL	4 x 500mL

Bluing Reagent - Optik Type 1

Optik Type 1 Bluing Reagent is a ready-to-use, buffered bluing reagent with a pH of 8.0 to assure proper bluing of hematoxylin stained tissue sections. It is also more resistant to the effects of carry-over and remains in the proper pH range for a longer period of time.

Item	Qty	Case Qty
RS4363-B	1 Gal	4 x 1 Gal

Aqueous Clarifier Concentrate - Optik Type 1

Optik Type 1 Clarifier Concentrate is a uniquely formulated buffer that enhances cytoplasmic details, increases cell transparency and helps eliminate background staining. It selectively removes non-specific staining while leaving nuclear staining unaffected. This is a concentrated solution to be mixed.

Item	Qty	Case Qty
RS4360-A	500mL	4 x 500mL

Aqueous Clarifier - Optik Type 1

Optik Type 1 Clarifier is a uniquely formulated buffer that enhances cytoplasmic details, increases cell transparency and helps eliminate background staining. Selectively removes non-specific staining while leaving nuclear staining unaffected. Convenient and ready-to-use.
