1. IDENTIFICATION

Avantik
36 Commerce Street, PO Box 619
Springfield, NJ 07081
1 (800) 783-9424

Product Name: Cryospray
Product Code: EM0190
Product Use: Duster/Freeze Spray
24-hour emergency phone: 1-800-424-9300 [CHEMTREC]

2. HAZARD IDENTIFICATION

POTENTIAL HEALTH EFFECTS
Classification of the chemical in accordance with paragraph (d) of §1910.1200;
GHS Hazard Symbols

GHS Classification Gases under pressure - Liquified Gas
Signal Word Warning
Hazard Statements Contains gas under pressure; may explode if heated.
Precautionary Statements

Storage Protect from sunlight. Store in a well-ventilated place.

HMIS® III* HAZARDOUS WARNINGS:
Health: 1 Flammability: 1 Physical: 0 Personal Protective Equipment: See Section 8

* See www.paint.org/hmis or call the ACA at 1 (202) 462-6272 for more information on this current rating system.

4. FIRST AID MEASURES

Eyes: Immediately flush eyes gently with plenty of water for at least 15 minutes while holding eyelids apart. If symptoms persist or there is visual difficulty, seek medical attention.

Skin Contact: In case of contact, immediately wash contaminated area with plenty of water for at least 15 minutes. Seek medical attention if symptoms persist. Wash clothing before reuse.

Ingestion: Ingestion is an unlikely route of exposure.

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek immediate medical attention.

NOTES TO PHYSICIAN:
Because of possible disturbances of cardiac rhythm, catecholamine drugs, such as epinephrine, should be used only in situations of emergency life support.
5. FIRE FIGHTING MEASURES

Fire and/or Explosion Hazards: Gas is not flammable at ambient temperatures and atmospheric pressure. However, this material may become combustible when mixed with oxygen or air under pressure or air above atmospheric pressure. Containers may rupture or explode under fire conditions.

Fire Fighting Instructions: Use CO2, foam or dry chemical. Water is generally not effective and may spread fire; however, water spray may be used from a safe distance to cool closed containers and protect surrounding area.

6. ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:
Ventilate contaminated area. Remove all sources of ignition. Wear appropriate personal protective equipment (PPE). Stop or reduce discharge if it can be done safely.

7. HANDLING AND STORAGE

Handling: Use with adequate ventilation. Do not use near ignition sources. Do not breathe vapor. May cause frostbite.
Storage: Store in a cool, dry, well ventilated area away from all sources of ignition. Do not store at temperatures above 122 degrees F. Empty container may contain residues which are hazardous.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Ventilation should be adequate to prevent exposures above the limits indicated below in this section of the SDS (from known, suspected or apparent adverse effects).

Eye Protection: Wear chemically resistant safety glasses with side shields when handling this product. Wear additional eye protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid or airborne material. Have an eye wash station available.
Skin Protection: The use of chemically resistant gloves is recommended if there is any possibility of prolonged or repeated liquid contact with skin.
Respiratory Protection: None required for well ventilated situations. A supplied air respirator should be used if ventilation is not sufficient to maintain exposure limits. Use NIOSH approved respirator where there is likelihood of inhalation of the product mist, spray or aerosol.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Aerosol
Appearance: None
Odor: Slight ethereal.
Odor Threshold: Very faint
pH: Not applicable
Melting/Freezing Point (°F): -15.2
Boiling Point (°F): Not applicable
Flash Point (°F PMCC): Not applicable
Evaporation Rate: 0.5-2 (n-Butyl acetate = 1)
Flammability (solid, gas): No data available
Percent VOCs (%): < 0.0001

10. STABILITY AND REACTION

Chemical Stability: Stable. Do not mix with oxygen or air above atmospheric pressure. Any source of high temperature (>250 C), may form hydrofluoric acid and possibly carbonyl fluoride decomposition products.
Conditions to Avoid: Ignition sources such as open flames, sparks, static discharges or glowing metal surfaces. Avoid contact with: Alkali. Alkaline earth metals. Freshly abraded aluminum surfaces. Powdered metals. Magnesium. Zinc. Chemically active metals: calcium, powdered aluminum, zinc, sodium, potassium, magnesium, etc.
 Decomposition Products: This material can be decomposed by extremely high temperatures (open flames, glowing metal surfaces, etc.) forming hydrofluoric acid and carbonyl fluoride.

11. TOXICOLOGICAL INFORMATION

Inhalation Toxicity: Inhalation LC50 (4h) Rat > 50000 ppm
Reproductive & Developmental Toxicity: No data available.
IARC Carcinogen Designation: No data available

12. ECOLOGICAL INFORMATION

Ecological Toxicity: Presents little or no hazard to the aquatic environment.
Mobility: No data available
Degradability: Not considered biodegradable; 100% volatile.
13. DISPOSAL CONSIDERATIONS

Disposal: Dispose according to Federal, State and local regulations.
