1. Chemical Product and Company Identification

**Product Name:** Histo-Clear  
**Product Number:** HS-200

**Chemical names/description**  
Distilled essential oils - food grade

**Manufacturer**  
National Diagnostics  
305 Patton Drive  
Atlanta, GA 30036

**Telephone Numbers**  
(404) 699-2121  
(800) 526-3867

**Emergency Numbers**  
Chemtrec  
1-800 424-9300 (U.S. & Canada)  
01-703-527-3887 (outside U.S. & Canada)

2. Composition/Information on Ingredients

**EEC LABEL SYMBOL AND CLASSIFICATION**

**R:** 10-38-43-50/53  
Flammable. Irritating to skin. May cause sensitization by skin contact. Very toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment.

**S:** 2-24-37-60-61  
Keep out of the reach of children. Avoid contact with skin. Wear suitable non-latex gloves. This material and its container must be disposed of as hazardous waste. Avoid release to the environment. Refer to special instructions/safety data sheets.

3. Hazards Identification

**Appearance and Odor**  
Colorless, mobile liquid with citrus odor

**EMERGENCY OVERVIEW - IMMEDIATE HAZARD**

Combustible liquid. All materials in this product are GRAS (generally regarded as safe). However, this product may be harmful if swallowed in sufficient volumes. Ingestion may cause vomiting, headache, and other medical problems. This product may be irritating to skin and eyes. Inhalation can cause nose, throat, and respiratory tract irritation, coughing and headache. Extremely old or improperly stored product may begin to accumulate potentially sensitizing break-down products.

**EMERGENCY OVERVIEW - CHRONIC HAZARD WARNING**

Prolonged or repeated exposure can cause drying, defatting and dermatitis of skin.

**Potential Health Effects**

**Inhalation**  
Inhalation can cause nose, throat, and respiratory tract irritation. Prolonged exposure to high vapor or mist concentrations may cause dizziness, headaches, and nasal irritation.

**Ingestion**  
Ingestion may cause vomiting, headache, and other medical problems.
Skin
Repeated or prolonged contact can cause redness, irritation, and scaling of the skin (dermatitis). Normal care and personal hygiene should prevent skin effects.

Eyes
Eye irritation may occur with exposure to concentrated vapors or contact with product.

Signs and Symptoms of Overexposure
Inhalation
May include dizziness, headaches, and nasal irritation.

Ingestion
May include nausea, vomiting, and headache.

Skin
May include drying and redness (dermatitis) of the skin.

Eyes
May include redness, itching, and watering of the eyes.

Carcinogenicity
None of the components of this material are listed by NTP, OSHA, ACGIH, or IARC as a carcinogen or a suspected carcinogen.

Mutagenicity
No information available.

Reproductive Toxicity
No information available.

Teratogenic Effects
No information available.

Routes of Entry
May be absorbed through the skin, by inhalation, or by ingestion.

Target Organ Statement
No information available.

4. First Aid Measures
Inhalation
Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.

Ingestion
Do not induce vomiting. If swallowed and the person is conscious, immediately give large amounts of water. Get medical attention.

Skin
Immediately flush skin with plenty of soap and water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.

Eyes
Remove contact lenses at once. Immediately flush eyes with plenty of water for at least fifteen minutes, lifting lower and upper eyelids occasionally. Get medical attention immediately.

5. Fire Fighting Measures
Flash Point: 49
Flash Point Method: TCC
Flammable Limits: L.E.L. 0.7%; U.E.L. 6.1%
Autoignition Temperature: N.A.

Extinguishing media
Dry powder, foam, carbon dioxide. (Water may be ineffective.)

Protective Equipment
In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode.

**Hazardous Combustion Products**
- Thermal decomposition products may include carbon monoxide, carbon dioxide, and hydrocarbons.

**Unusual Fire and Explosion Hazards**
- None known to National Diagnostics.

**NFPA Codes:** Health 1  Flammability 2  Reactivity 0

### 6. Accidental Release Measures
**Steps to be taken in case material is released or spilled**
- Eliminate source of ignition. Ventilate area. Cover with absorbent material (soda ash) to confine spill and sweep or shovel into container. Close container tightly.

**Waste Disposal Method**
- Disposal must be made in accordance with applicable federal, state, and local regulations.

**Personal Precautions**
- Wear appropriate protective equipment as specified in Section 8.

### 7. Handling and Storage
**Handling**
- Avoid contact and inhalation. Do not get in eyes, on skin, on clothing. Wash thoroughly after handling.

**Storage**
- Keep in a tightly closed container, stored in a cooled, dry, ventilated area away from sources of heat or ignition. Protect from physical damage. Isolate from incompatible materials.

**Storage Temperature**
- 20 - 30°C

**Disposal**
- Observe all national, state, and local regulations regarding disposal.

### 8. Exposure Controls/Personal Protection
**Airborne Exposure Limits**
- **Component:** d-limonene
- **ACGIH Threshold Limit Value (TLV):** None established
- **OSHA Permissible Exposure Limit (PEL):** None established

**Engineering Controls**
- Local exhaust should be adequate.

**Respiratory Protection**
- Not expected to require personal respirator usage, but if vapor concentration becomes high, use approved self-contained air mask.

**Eye Protection**
- Safety glasses.

**Skin Protection**
- Wear protective gloves and clean body covering clothing.

**Other Control Measures**
- N.A.

### 9. Physical Properties
- **Boiling point (°C):** 179
- **Evaporation rate:** 0.2 (BuAc=1)
- **Melting point (°C):** 0
- **Solubility in water:** Insoluble
- **Solubility in water:** Insoluble

3 of 5
10. Stability and Reactivity

**Stability**
Stable under normal conditions of use. Incompatible with strong oxidizing agents.

**Conditions to Avoid**
Heat, sources of ignition.

**Hazardous Decomposition Products**
Carbon monoxide and unidentified organic compounds may be formed during combustion.

**Hazardous Polymerization**
Will not occur under normal conditions of use (See Sections 10.4 & 10.5).

**Incompatibles**
Avoid contact with strong acids, alkalis, or oxidizing agents.

12. Ecological Information
No information available on the ecological fate of this material.

13. Disposal Considerations
Observe all national, state, and local regulations regarding disposal.

14. Transport Information

**DOT**
Proper Shipping Name: Terpene Hydrocarbons, N.O.S. (d-limonene)
Hazard Class: 3
UN Number: 2319
Packing Group: III

**IATA**
